Geotic Environment Safety And Security Alliance Private Limited

ABOUT US

We are inspired by the German word 'GESA' which means strength of the sphere. As the name suggests, we would want to be a driving strength in the field of safety and security to improve and support communities where we exist.

We are a professional and independent entity, providing health, safety and security solutions and products. We operate in the areas of training, consulting and resourcing (placements) with public and private sectors, and providing safety equipment. Our training comprises of professional certification programs of different levels and topics, delivered by qualified trainers. Consulting service is holistic, right from diagnosis to delivery. The industry is facing a dearth of trained professionals with the required theoretical and practical knowledge. Here is where our placement service comes to aid.

We aim to not limit the industry outlook to procuring or delivering of health & safety products and services; it should instead be a way of life. We want to enable individuals and organisations implement the thought 'prevention is better than cure' in their actions and decisions.

The directors at GESA are veterans and experts in their respective field. Together with their management and guidance, we are confident of exceeding our customer's expectations.

Apart from catering to organisations of varied nature and size in different capacities, we are initiating safety specific educational programs to create employment opportunities and contribute to the growth of the industry and nation, be it a drop in the ocean.

VISION

GESA aspires to be instrumental in prioritising 'safety & security' at the individual, group and organisation level of varied nature, thereby co-owning safety programs, and co-creating safe working and living places.

MISSION

To be a catalyst for sensitising individuals and organisations, making the desired behavioural and cultural change towards prevention and management of fire, safety, disaster and security.

WHAT DIFFERENTIATES US

- **Our Human Resource:** At the apex, GESA is driven by professionals who are qualified, competent and committed to the cause of bringing safety to the forefront. These aspects positively impact our approach towards the quality of services delivered to our clients. The authenticity and commitment run top-down and is cascaded to the entry-level employees.
- **360-degree approach:** We equip our clients with knowledge, equipment, systems and processes. Our services are holistic; advising on the internal processes and systems, equipping the staff with knowledge, developing the desired competencies.
- **We make our clients independent:** We prepare the internal trainers/employees to be the change agents to lead the transformation within the organisation. Eventually, the dream for our clients is to make them independent, to be able to prevent and manage unfortunate events effectively.
- **Personalised approach:** Listening is a critical skill that we look for in our employees. It is because we want to listen to our clients and their need, to provide them with services meeting their specific demand and expectations.

OUR VALUES

Our values are the principles we live. These are essential non-negotiables, it guides us under various circumstances, it drives our thoughts, actions and decisions. It is who we are and what we stand for!

- Action Oriented
- Passionate
- Presence of mind
